## CHRISTMAS COMMUNITY CHALLENGE

Raiders U9 Black and Raiders U11-4 came together to support Kindred, an organization that is dedicated to realizing the power of human connection. Kindred believes that the keys to living well, are healthy relationships and connection. Kindred invests in the special bond between children and those who care for them. Kindred provides support toward healing when essential relationships are ruptured. They also provide timely access to mental health support that can inspire confidence with self and others.

Many families supported by Kindred have never had Christmas gifts to open and many of the young moms

are still going to school and upgrading and/or trying to get their diploma. The teams raised over \$1200 in

gift cards and managed to fulfilled all the items on the wish lists provided by each family. Merry Christmas to all!
